**Birdsall Services Group Continues to Grow with addition of Newtown, PA Office**

*Engineering Company Expands to Meet Needs of Philadelphia Market*

Sea Girt, NJ—Birdsall Services Group –(BSG), a group of professional engineering companies comprised of four firms serving the needs of a wide variety of clients in the private, government, public, commercial and not-for-profit sectors, has expanded its regional reach with the addition of an office in Newtown, PA.

“BSG’s success will rely on increasing service to its clients and that means being near them geographically,” said BSG Chief Executive Officer Howard C. Birdsall. “The addition of Newtown broadens our presence in Bucks County and the greater Philadelphia area and will serve to aid us as our Company continues to grow into new regions.”

Among those working from the Newtown office will be Victor Vittorino, Business Development Specialist. Mr. Vittorino has extensive experience in the region having been active in the environmental services business for the past 14 years performing a broad range of training and business development functions to the industrial hygiene sector. Vic was formerly Mayor of Delanco in Burlington County, NJ. In addition to his Newtown presence, he will continue to represent BSG in their Mount Laurel, NJ office as well. The new office is located at 12 Penns Trail, Suite 150, Newtown, Pennsylvania. Phone: 267-756-7016.

**About Birdsall Services Group**

Birdsall Services Group (BSG) is comprised of four professional engineering companies; Birdsall Engineering, Inc., Di Stasio & Van Buren, Inc., LGA Engineering, Inc., and Morris, Johnson & Associates, Inc. Covering a broad range of services from civil, environmental, traffic/transportation, municipal, structural, mechanical, electrical plumbing, surveying, marine, consulting, planning, landscape architecture and more, BSG serves a wide variety of residential, commercial, industrial and governmental entities. The ability to draw on the resources and technical expertise of the combined strengths of these organizations allows BSG to manage multiple projects and offer solutions to complex challenges as a single source permitting more timely and cost effective customer results.
