

Join us for our upcoming webinar...

IT SECURITY: Are You Really Secure? Lessons From The Real World

Friday, September 22, 2006 1:00 PM – 2:00 PM Reserve Space Now!!!

Below is your complimentary ticket from D&E!

Join D&E Communications for an IT Security Webinar to learn more about the latest security threats and solutions from our expert panel of speakers.

Ron Gula - CEO & CTO, Tenable Network Security

Ron is the original author of the Dragon IDS and CTO of Network Security Wizards which was acquired by Enterasys Networks. Mr. Gula began his career in information security while working at the National Security Agency conducting penetration tests of government networks and performing advanced vulnerability research. Mr. Gula has a BS from Clarkson University and an MSEE from the University of Southern Illinois. Ron Gula was the recipient of the 2004 Techno Security Conference "Industry Professional of the Year" award.

Jerry Shenk - Senior Security Analyst, D&E Communications

Jerry currently serves as Senior Analyst for the SANS Institute and is the Senior Security Analyst for D&E Communications in Ephrata, PA. Since 1984, he has consulted with companies, financial and educational institutions on issues of network design, security, forensic analysis and penetration testing. His experience spans small home-office systems to global networks. Along with some vendor-specific certifications, Jerry holds 5 GIAC GOLD certifications: GCIA, GCIH, GCFW, GSNA and GCFA: all completed with honors.

Paul Ross - VP of Systems Integration, D&E Communications

Paul drives technology adoption for clients of D&E through innovative services and custom networking and security projects. With 15 years of experience in Telecommunications, Computer Networking, Software Development, and business management, Paul is accomplished at building and leading teams to new and profitable growth. Prior to his current position with the Systems Integration business unit, Paul managed and launched D&E's ISP: Jazzd, lead the marketing department and served as the Director of Software Development for MapQuest.com.

You must pre-register before 9/19/2006.
