## **Deloitte 2006 Technology Fast 500 Recognizes Miles Technologies Growth, Momentum**

***Miles Technologies of Moorestown named on elite list of national top technology innovators.***

MOORESTOWN, NJ (October 25, 2006) -- Miles Technologies announces that it ranked among leading software companies recognized on Deloitte's 2006 Technology Fast 500, a ranking of the 500 fastest growing technology, media, telecommunications and life sciences companies in North America.

The North American Technology Fast 500, founded in 1995, is a program of Deloitte's Technology, Media & Telecommunications (TMT) Group. The Technology Fast 500 recognizes the 500 fastest-growing technology, media and entertainment, telecommunications and life sciences companies in the United States and Canada.

Through the years, the companies that have appeared on the prestigious list have shown a remarkable ability to maintain spectacular growth, not just during the heady times of the technology boom but also through this now increasingly competitive landscape. The five-year growth rates of the companies on the 2006 Deloitte Technology Fast 500 list, while still stellar by any measure, reflect a business environment that rewards sustained performance.

This year marks the 12th anniversary of Deloitte's Technology Fast 500.

"Miles Technologies is honored to be named to the Deloitte Technology Fast 500," reports Chris Miles, president and CEO of Miles Technologies. "From the beginning, we have focused on offering innovative and customized business technologies for our clients, coupled with unwavering dedication to customer service and a visionary approach to applying technology to business processes – we understand technology, we understand business."

Sophisticated technology is becoming the norm and is in almost everything in the 21st century, reports Tony Kern, deputy managing principal of Deloitte's Technology, Media and Telecommunications industry practice.

Earlier this year, Miles Technologies was named to Deloitte's prestigious 2006 Greater Philadelphia Technology Fast 50, a ranking of the 50 fastest growing technology companies in the Delaware Valley region by Deloitte & Touche. During 2006, Miles Technologies was also recognized by the Philadelphia 100, a prestigious business ranking by the Philadelphia Business Journal and the nationally recognized Wharton School of Business.

### **Deloitte Fast 500 Qualifying Criteria**

The Fast 500 ranks the fastest growing technology, media, telecommunications and life sciences companies in North America. It is compiled from Deloitte's 16 regional North American Fast 50 programs, nominations submitted directly to the Fast 500, and public company database research. Winners are selected based on percentage revenue growth from 2001 to 2005. To be considered, Fast 500 and Fast 50 entrants must have met the following criteria:

Must own proprietary intellectual property or proprietary technology that contributes to a significant portion of the company's operating revenues, or devote a significant proportion of

revenues to research and development of technology. Using other companies' technology or intellectual property in a unique way does not qualify.

Base-year operating revenues must be at least \$50,000 USD or \$75,000 CD, and current-year operating revenues must be at least \$5 million USD or CD.

Companies are required to submit tax returns or audited financial statements with their submitted nomination to complete their eligibility.

Must be in business a minimum of five years.

Must be headquartered within North America.

Subsidiaries or divisions are not eligible, unless they have some public ownership and are separately traded.
