COMTEC SYSTEMS ANNOUNCES DOUBLE DIAMOND ASSOCIATE STATUS WITH NEC UNIFIED SOLUTIONS

ComTec Systems Strengthens Alliance with NEC Unified Solutions.

Vineland, New Jersey, December 20, 2006 —ComTec Systems, Inc., (“ComTec”) a leader in voice, data and video solutions for the enterprise market, today announced that they are now a Double Diamond Associate of NEC Unified Solutions’ (NEC) Alliance Recognition Program. NEC Unified Solutions, a leader in converged communications solutions for the enterprise and small to medium businesses, created the Alliance program to recognize Associates’ sales achievements, business strengths and to solidify the partnership between Associates and NEC.

The Double Diamond status is a three-dimensional method of recognition taking into account the Associate’s relationship with NEC, its competitiveness in the marketplace, and overall technical expertise. Associates earn “points” for sales volumes, technical and application certifications, and percentage of NEC solutions within their business. By achieving Double Diamond status, the Associate is awarded special benefits from NEC including special training and demos, designation on NEC’s website and certain discounts and rebates.

ComTec has been a premier provider of NEC solutions for 5 years and has one of the most advanced NEC certified technical staffs in the Mid-Atlantic Region. Over the last three years, ComTec has been growing at a tremendous pace and has become a major technology player deploying solutions to the enterprise market. “Our customers rely on our expertise and our ability to support their technology needs. NEC supports our vision by providing the highest quality products at reasonable pricing,” said Michael Vertolli, President, ComTec Systems, Inc.

“Any culmination of two successful entities breeds foundation for success, and by creating this program, NEC is able to show its loyalty to our Channel community,” said Larry Levenberg, vice president and general manager, national channel, NEC Unified Solutions. “With the involvement of companies such as ComTec, our Channel community has become a vehicle for increased sales, creating opportunities that help enterprises communicate more efficiently and effectively.”
