

FOR IMMEDIATE RELEASE

Miles Technologies Appoints Brian Bartlett Director of Client Services

Miles Technologies promotes Brian Bartlett to Director of Client Services. Bartlett, founder of the former CADD Value Corporation of Voorhees, acquired by Miles Technologies in 2005, compliments the business IT strengths of Miles Technologies with two decades of IT expertise, success and leadership.

MOORESTOWN, NEW JERSEY (January 9, 2007) – Miles Technologies announces the promotion of Brian Bartlett to the position of Director of Client Services, effective immediately. The announcement was made by John Bialous, the company's chief operating officer.

Bartlett has served Miles Technologies for the past 12 months as the company's Senior Business Analyst. Bartlett joined the company in 2005, when the company Bartlett founded and operated for 19 years, CADD Value Corporation of Voorhees was acquired by Miles Technologies. Formerly of Voorhees, Bartlett currently resides with his wife and family in Bear, Delaware.

The acquisition positioned CADD Value Corporation's trademarked technology, Client Social Services Tracker (CSST), to be marketed and supported by the award-winning business technologies team of Miles Technologies. CADD Value Corporation is the creator of CSST, Client Social Services Tracker, a robust, agency wide database application developed several years ago to provide comprehensive data management services to social service and CAP (Community Action Programs) Agencies throughout New Jersey and the United States.

CSST was designed from the ground up by CADD Value Corporation in collaboration with Tri-County Community Action Partnership. Tri-County Community Action Partnership is one of the largest CAP Agencies in the state of New Jersey. CSST provides a complete solution using real workflows and addresses the daily needs of an active agency.

In his new position as Director of Client Services at Miles Technologies, Bartlett will work on improving customer retention with all of the services Miles Technologies provides, chiefly the company's core strengths of business IT, development, creative services, forensics and all new services the company will be launching throughout 2007.

During 2006, Miles Technologies was recognized by the Deloitte Technology Fast 500, as well as the Deloitte Technology Fast 50 (Greater Philadelphia), and also ranked prominently on the Philadelphia 100, New Jersey Finest, South Jersey Fast 25 and other business rankings and awards for the company's positive growth, effective business technologies and services and client services. Miles Technologies is a proud member of the New Jersey Chamber of Commerce, Greater Philadelphia Chamber of Commerce, Cherry Hill Regional Chamber of Commerce, South Jersey Chamber of Commerce and the Burlington County Chamber of Commerce.
