## Bondepus Graphic Design Moves to Philadelphia!

Bondepus Graphic Design has finished it's office build out and opens their doors in Fishtown! Bondepus Graphic Design specializes in two fields of expertise, Identity/Branding and Real Estate. For entrepreneurs starting your new venture we are a full service Branding firm. We take your "baby" and dress it for success. Creating a strong identity for the business and carrying it out consistently, forming a brand that is easily identifiable and memorable. We also cater to the Real Estate Industry for their marketing communication needs. Who do we mean by Real Estate Industry? Realtors and brokers of course, but we also work with developers, apartment associations, property managers, consultants, title companies, home stagers, electricians, plumbers, and general contractors. We design and produce any marketing communication this industry may need. A sample list of our products include custom websites, invitations, flyers, mailers, postcards, brochures, and presentation folders.
