

“Upgrade to Microsoft Exchange Server 2007” Event

Hosted by: Engage Systems

Date: Wednesday, May 2, 8:30 AM – 2:00 PM
Continental Breakfast and lunch will be served

Place: Microsoft Corporation
45 Liberty Blvd.
Great Valley Corporate Center, Suite 210
Malvern, PA 19355

Discover how Exchange 2007 will help you to improve operations and stay ahead of your competition. Come see how upgrading to Microsoft® Exchange Server 2007 gives you the anywhere access capabilities your end users want and comprehensive protection technologies against viruses, worms, spam and inappropriate content that your company demands.

See first-hand the new capabilities in Microsoft Exchange Server 2007 deliver the anywhere access your users want, the advanced protection your company demands, and the operational efficiency you need.

- **Anywhere access capabilities.** Mobile workers will have the ability to be more productive from virtually anywhere. Through a familiar Microsoft Office Outlook® experience, email, voice mail, calendar, and faxes are seamlessly delivered to one inbox enabling users to easily share documents and set up meetings.
- **Comprehensive protection and disaster recovery capabilities.** Maintain system integrity, protect intellectual property and help ensure the uninterrupted flow of e-mail and business. New built-in compliance tools simplify the process of meeting internal and regulatory requirements.
- **More efficient and cost-effective deployment.** Simplify the administration process and maximize the return on your hardware and networking investments with a native 64-bit support. We can also help you find and fix problems quickly to raise operational efficiency to a whole new level.

Register now before it's too late, seating is limited. Please go to www.clicktoattend.com to register and review event detail. **Enter event code #116505.**
