## FOR IMMEDIATE RELEASE

### **MindCrossings, Inc. Announces Acquisition of MOSAIC Performance Consulting, LLC**

*Acquisition Further Expands MindCrossings' Expertise and Delivery Capabilities for Improving Performance in the Workplace.*

BERWYN, PA (March 6, 2007)— MindCrossings, Inc., a provider of custom learning solutions to the corporate marketplace, announced today that it has completed the acquisition of MOSAIC Performance Consulting, LLC. The acquisition will further strengthen MindCrossings' ability to assist organizations improve employee workplace performance through the use of innovative training techniques and technologies.

MindCrossings and MOSAIC have worked closely together since mid-2006 to develop and deliver training to national corporations using instructor-led seminars, virtual classes, and e-Learning modalities.

“This acquisition represents another step forward in the execution of MindCrossings' growth strategy,” says Micheal A. McIntyre, President of MindCrossings. “Bringing the two firms together facilitates the immediate integration of our complimentary resources to better serve our clients.”

Susan Loeper, former President of MOSAIC, will be joining MindCrossings' executive team as Vice President of Learning Solutions. Ms. Loeper earned a Bachelor of Arts at Moravian College, and has a Masters degree in Instructional Technology from Lehigh University. A long-time member of the American Society of Training and Development (ASTD), she looks forward to receiving their Certified Professional in Learning and Performance (CPLP) designation this May. MindCrossings will utilize Ms. Loeper's strong leadership, vision and corporate training experience to expand its offerings in the areas of custom learning solutions, performance consulting, and e-Learning strategies.

“We are thrilled to add Susan Loeper and MOSAIC to our team. Susan's expertise in developing successful learning solutions will enhance our ability to apply creative design techniques to rapidly create highly effective and engaging training programs,” says McIntyre.
