

mindSHIFT to Advance Legal Aid Society's Infrastructure

Technology Modernization Will Support Society's Mission to Aid Indigent New Yorkers

Fairfax, VA— May 8, 2007 — The Legal Aid Society, the nation's oldest and largest provider of legal services to New York's indigent, awarded mindSHIFT Technologies a \$2.04 million contract to lead their network transformation plan – a modernization plan that was developed over the past year with mindSHIFT's assistance.

"mindSHIFT has been a crucial participant in The Legal Aid Society's efforts to make major technology advancements, which include a complete overhaul and modernization of its technology infrastructure and applications," said Theodore A. Levine, President. "We feel that the technological advances implemented by mindSHIFT professional services, working with our excellent Management Information System staff led by Edward Braunstein, will enable the Society to better serve our 275,000 clients."

During 2006, mindSHIFT helped to provide the Legal Aid Society with a technology requirements assessment and worked with its MIS staff to develop an organization-wide technology services transformation plan. This technology plan, which enables the Society to better service its 275,000 clients, was jointly developed through the assistance of a pro bono committee comprised of the Chief Information Officers at six major law firms and corporate heads of mindSHIFT, Baker Robbins & Company and Doar Litigation Consulting,

The Legal Aid Society is the oldest and largest provider of free legal services in the nation. Legal representation is provided to indigent New Yorkers through the civil, criminal and juvenile rights practices.

About mindSHIFT Technologies, Inc.

With operations in Boston, New York, Philadelphia and Washington D.C., mindSHIFT is a leading Managed Services Provider (MSP) offering managed IT services, VoIP, compliance and professional services to small and medium-sized organizations. The company's portfolio of managed services provides a comprehensive solution which includes such critical services as email management and administration, electronic backup for servers and desktops, virus and spam protection, desktop support, and server management. Managed services customers are supported by both a 24-hour Network Operations Center for proactive management support and a call center which diagnoses and resolves all end-user desktop issues. For advanced and larger businesses, the company provides business application migrations, storage area network upgrades and complex hosting applications. Additionally, mindSHIFT has superior expertise and experience in meeting the compliance requirements of financial services firms, as well as the complex demands of the legal community for the integration of applications such as document management.
