For ten years, the Jonathan Lax Treatment Center has provided state of the art HIV primary care and advanced clinical research to all who walk through its doors. Our physicians have offered this comprehensive care without regard for ability to pay or insurance status, believing that our city's most vulnerable individuals deserve quality care.

On November 29th we will celebrate our 10 year commitment to treating those impacted by the AIDS pandemic as well as look towards our future with a fundraiser to secure the services needed.

Please join us on November 29th to ensure the continuation of these critical services. You can register online at www.fight.org or call Kristyn at 215.985.4448, ext. 105 for donation information!
