ENTER OUR WORLD

Do you have products or inventory you would like to put on a Home Shopping Network type of program? The programs are new and are being televised to 110 million households in Europe and North Africa.

If you have an infomercial and your product is accepted, the producer may be able to use it "as is". There is no fee associated with this method. We only need to review your infomercial to see if it is acceptable. If not, an infomercial can be produced at the discounted cost of \$15,000.00 USD (normally \$100,000.00 is needed to produce an equivalent infomercial). Two (2) samples of the product presented would need to be sent to the producer after the infomercial is produced and the contract has been signed. Individuals from your company may also participate in the product presentation portion of the infomercial. Who is better qualified to present the product than the maker? Once the infomercial is complete, the producer will place an order for 100 pieces of your product. All subsequent orders will be for minimum quantities of 100 pieces. The producer will translate it into all necessary languages at no additional fee.

Options:

1. You have an infomercial that is usable - no additional charges
 - 2 samples required after contract is signed
 - All translations free of charge
 - A pre-paid order for 100 pieces will be sent several weeks after receipt of the infomercial.
 - All subsequent orders will be pre-paid and in minimum quantities of 100 pieces
2. No useable infomercial
 - \$15,000 fee to produce infomercial in Toronto, Canada. (you can be present or participate)
 - 2 samples required after contract is signed
 - All translations free of charge
 - A pre-paid order for 100 pieces will be sent several weeks after receipt of the infomercial.
 - All subsequent orders will be pre-paid and in minimum quantities of 100 pieces

This is an excellent opportunity to enter into a new market for much less cost than traditional methods. If you would like to take advantage of our offer or know of any companies in this category or with inventory they would like to move, please let us know
