## FOR IMMEDIATE RELEASE

January 13, 2009

### Learn to Innovate with Philadelphia life coach Sarah Shore. M.S.

Sarah Shore, M.S. ([www.sarahshoreconsulting.com](http://www.sarahshoreconsulting.com)), life coach and business consultant, wants you to learn to “think big” and has a program designed to help you get there. “Creating Innovation in Your Own Life” is a one-of-a-kind, completely interactive workshop taking place at the Warwick Hotel in Philadelphia on Saturday February 7, 2009 from 9 am – Noon.

Participants bring a goal they would like to achieve and can walk away with new skills and ideas to make the solution a reality. Drawing on the successes of group collaboration in the technology and design fields, Sarah Shore translates the breakthrough benefits of innovative thinking to the realm of individual achievement. Welcome to a crash course in personal and professional development!

Participants engage in “peer co-creation” to develop solutions, learn creative problem-solving, do some “rule-breaking,” smash bad habits, energize each other to accomplish personal and professional goals, and learn to “think big”—bringing the power of innovative thinking to daily life.

“Creating Innovation in Your Own Life” is presented by Sarah Shore, M.S. of Sarah Shore Consulting, LLC. Ms. Shore is an expert in the fields of personal and organizational improvement with over 10 years of professional experience guiding individuals and organizations toward greater achievement, improvement, and growth.
