

2009 Will Bring Substantial Change to Workplace Regulations - Philadelphia, PA - February

Get Ready for These Changes Now!!

Change is here and more may be coming. You no doubt heard a great deal during the recent campaign about "change." As that term relates to labor and employment legislation, change has already occurred and more is on the way. We have already seen significant ADA changes, new FMLA Regulations, and EEOC Guidance in other key areas. With a new President and one party controlling both houses of Congress, employers can expect legislative action on a variety of workplace initiatives that will re-shape the legal landscape. To prepare employers for these far-reaching changes, attorneys from the national labor and employment law firm Fisher & Phillips LLP are offering a Breakfast Briefing on February 19, 2009 at the Rittenhouse Hotel in Philadelphia. The primary focus of the Briefing will be the new FMLA Regulations and the amendments to the Americans with Disabilities Act.
