

Asher's Chocolates Selects All Covered as Their IT Services Provider

Asher's Chocolates, purveyors of fine confections and delicious sweets for over 100 years, has recently signed a sweet deal with All Covered for comprehensive IT services.

Asher's Chocolates began looking for another IT services provider when they became very unhappy with their current vendor who was arrogant and not proactive in their support of Asher's Chocolates network and infrastructure.

Scott Blau, Director of IT at Asher's Chocolates, selected All Covered because of their professionalism, guaranteed server uptime and their flexibility in tailoring a solution to fit their needs and their budget.

All Covered will support Asher's Chocolates 93 employees and 18 servers with comprehensive IT services including proactive desktop and server maintenance, 24 x 7 remote monitoring of servers and key network elements, email protection from viruses, spam and phishing scams, remote and on-site support, hardware/software recommendations and purchasing and strategic planning.

Asher's Chocolates only uses the finest and purest ingredients in their candies and sweets and in the same vein, All Covered only employs top-notch, experienced technical and customer service professionals.

As a fairly new member of the Greater Philadelphia Chamber of Commerce, All Covered appreciates the opportunity to meet other chamber members in order to share business successes, leads and to support the community in general.

All Covered has been serving small businesses in the greater Philadelphia area since 2000. Across the U.S., more small businesses trust All Covered for their IT support than any other company. All Covered has local teams in over 20 cities with more than 200 IT experts who have the knowledge and skills to solve information technology challenges. All Covered offers value added IT services not normally available to small businesses, so clients reap the benefits from All Covered's partnerships, buying power and size. If you know of other companies that could benefit from professional IT support services, please contact All Covered at 866-446-1133 or go to www.allcovered.com.
