

H&R BLOCK®

Preparing America's Taxes Since 1955

A 2007 survey from H&R Block revealed that 62 percent of participants didn't know how much the Child Tax Credit was worth. And, with the potential to save as much as \$1,000 per eligible child, this is one credit most parents won't want to miss. In the two years since that survey, we have found that parents are unaware that they continue to claim their children as dependents after high school. Local H&R Block tax professional Diane Birton can educate you on the Child Tax Credit, Earned Income Credit, Education Credits and other benefits designed to help parents.
