

HAZLETON, PA – (Fall 2009) – Advanced Recovery Services, Inc., a national tax consulting firm specializing in Sales & Use Tax and Real Estate Tax Appeals, was recently honored at the annual Northeast Pennsylvania Manufacturers & Employers Association Awards Dinner.

Hosted annually by the Northeast Pennsylvania Manufacturers and Employers Association (MAEA), the event recognizes the top manufacturing and service-providing companies for community involvement, energy efficiency-environmental improvements, and product innovation-expansion. Legislative and senatorial citations were also presented to each award winner.

Advanced Recovery Services received the 2009 Honorable Mention from both the National Association of Manufacturers (NAM) and the Pennsylvania Manufacturers Association (PMA) in recognition of process innovation for assisting its clients in recouping overpayments of sales and use taxes and real estate taxes. Following the 2009 Property Tax Revaluation in Luzerne County, Advanced Recovery Services led its clients in successfully challenging the property tax increases, resulting in substantial tax savings for those involved in the process. Advanced Recovery Services also received a Legislative Citation for recognition of its contribution to the community.

“We are extremely honored to receive this recognition for our work, as it reflects our commitment to quality services to the business community,” stated Patrick Dooley, Advanced Recovery Services’ President.

Advanced Recovery Services’ innovative process for tax recoupment works well because it is nonintrusive to the businesses as ARS works independently and completes all necessary documentation to submit to the taxing authority, it is all inclusive covering the entire statutory period available and looking for every opportunity and ARS’ fee is based solely on what is recovered. If no taxes are recouped, no fee is paid.

Patrick Dooley, who accepted the awards for Advanced Recovery Services, also gives credit to its employees for their continuing efforts in helping provide the best services possible. Advanced Recovery Services was established in 1998 and provides services nationwide.
