

Mercadien Technologies Will Host a Lunch & Learn

Mercadien Technologies will host a Lunch & Learn “Simplified Technology Support – Manage Your Business, Not Your Technology” seminar on Wednesday, January 20, 2010 from 8:30 a.m. - 11:30 a.m. at The Mercadien Group Headquarters in Hamilton, NJ.

All organizations depend on computer networks. There is a cost to support technology whether you have staff members who handle network services or you work with an outside company. In today’s economic climate, everyone is looking to spend less without expecting less. Technology support is an area where you can save money and actually improve your service. Network management/administration, email management, virus/spyware updates, data backups that eliminate the use of tapes and complete help-desk support can be obtained through a simple, affordable monthly program.

This is free-of-charge, although seating for this seminar will be limited. If you would like to register, call Julie Kelso at (609) 689-2401 or email jkello@mercadien.com. Please RSVP by January 13, 2010.
