

Business Opportunities to Help Rebuild Haiti

Pennsylvania businesses interested in rebuilding Haiti have the opportunity to develop contracts related to the Haitian Relief and Reconstruction Effort.

Interested businesses can first visit FedBizOpps (www.fbo.gov) to locate Federal agency opportunities to sell or provide goods or services related to the USAID's relief and reconstruction efforts in Haiti. On the FBO.gov homepage, enter the keyword "Haiti" in the Keyword / Solicitation # text box and select the appropriate Posted Date choice from the dropdown menu.

Businesses may further refine their search by selecting the Advanced Search link where they can narrow the results by multiple categories and search criteria. For additional information, visit the U.S. Agency for International Development (USAID) website at www.usaid.gov.
