## **Eagle Transportation is Soaring**

New Castle, Delaware- Eagle is happy to announce the arrival of the first of 22 Lincoln Town Car Signature L Series vehicles. We are replacing our entire sedan fleet with these vehicles and all of them are the L model, affording our passengers an additional 6" of leg room in the rear passenger compartment. The addition of these vehicles will increase our sedan fleet by 25% to meet the growing needs of our clients. Additionally it will give us one of the newest all L Series fleets in our market ! This initiative is part of a fleet plan which will add additional luxury vans, SUVs and Mini/Maxi buses to the fleet.

We will also be announcing additional initiatives that will upgrade our IT capability, our billing and reservations systems and our GPS capabilities. This is all part of our effort to provide the best in chauffeured services to our clients.

Thank you for your continued support of Eagle Transportation Services
