The Citizens Crime Commission is partnering with the PA Auto Thief Prevention Authority (a watch dog group in the industry), to help assist in the prevention of cars being stolen in the Pennsylvanian area.

In conjunction with Lo-Jack Corporation the Commission has designated the Month of August as Auto Thief Protection Month. During the entire month of August the Program will entitle the owners of the 10 most stole autos to receive a Lo-Jack device, installed at the owner location, for the price of \$199, a savings of nearly 70% for the first 1000.

What is a Lo-Jack device?

The device has a signal in it, (if your car has been stolen) the Police agencies have a tracking device and have a very good chance of recovery your auto, plus it may lead to chop shops, where arrest will be made. Also some insurance companies may reduce your premiums, a saving for you, the owner.

What makes this program even more appealing is that you set the time and location for your installation, home, work or where ever, and they (Lo-Jack) will come there to do the installation.

How the program works!

We will have a toll free # in which the owner of the 10 most stole autos will call to set up their installation, date & time.

So if you are interested in obtaining a Lo-Jack, **please see the next month news letter from the Chamber** or call the Crime Commission at 215-546-6532. Remember we have funding for the reduced cost for the First 1000.

Who will be eligible?

Any one who owns below autos 2007

Honda Accord, Honda Civic, Toyota, Camry, Dodge Caravan (all Chrysler minivans qualify) Jeep Cherokee/Grand Cherokee Ford Taurus, Ford Explorer, Dodge Ram Pickup, Acura Integra & Ford F150 Pickup

Jersey residence's can also get a reduce price. That price is \$250.00 per unit, and they will also come to your location.
